Douglas,

I'll ask Lisa where things are at. I know our next step will be to get that RA memo signed. If I remember correctly she said that it has to route through her group and eventually to the Administrator on her end. We communicated this morning before the call. She said she's been really swamped and the snow day Monday hasn't helped. I guess WY is looking for a 30 day turnaround time on their crosswalk so they can go final on their reg's. As I understand it they want our comments along with the public's during the same 30 day notice period. Ron has also asked that she get the primacy manual finalized soon.

We are on her radar. She wants the ND thing to get done as badly as we do.

Would like to pass on to Sadie...but would prefer to let her know what the next steps are and if Lisa can give us a new date for publication of the rule package?

Lisa,

OGC concurs with this direct-final rule package. I have a few minor comments/edits in the attached document along with one suggestion on pg. 18. Let me know if you have any questions and thanks for all your hard work on this primacy package and revising the approach to Part 147.
